

7 LADY VINEYARDS

2023 Rosé

Shenandoah Valley

Winemaker Notes

A crisp, bright Provence-styled Rosé that announces elegance and acidic balance. The nose of ripe raspberry leads the aromatics, joined by a refreshing wash of fresh watermelon. The finish is cool, mineral-tinged, and whisper soft, leaving just enough fruit to invite another sip. Balanced for an irresistibly summery patio wine.

Season

2023 was a standout vintage for Virginia winemaking. A mild spring gave way to a warm, dry summer that shaped the vintage beautifully, preserving vibrant acid chemistry.

Stable weather allowed the fruit to hang to full ripeness without disease pressure, producing wines of remarkable intensity and concentration.

Winemaking

Direct pressed whole cluster. Settled and racked off gross lees. Inoculated with 71B. Fermented cold for ~45 days. Full malolactic fermentation. Aged 3 months in stainless steel.

Varietals:	95% Petit Verdot, 4% Petit Manseng, 1% Chardonnay
Appellation:	Shenandoah Valley
